

hereto as Exhibit A is a marked up copy of the substitute specification pursuant to 37 C.F.R. §1.125(b)(2) to indicate all changes to the specification of record.

In addition to the substitute specification, a Request for Approval of Drawing Changes has been filed herewith seeking the approval of certain drawing changes. Together, the changes to the specification and the changes to the drawings correct typographical errors and the informalities pointed out by the Examiner in the Office Action. As a result, the specification, as substituted, and the drawings, as changed, are mutually consistent.
